Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments filed 8/4/08 have been fully considered but they are not persuasive. The applicant argues that the attachment means of Franzen does not allow the capability of pivoting. Franzen illustrates a round snap fastener 26 that fastens in hole 28. This round shape would inherently allow rotation which would allow the device to pivot as claimed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 25-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Franzen (US 4,062,067). Franzen teaches a headguard with an overlapped inner 12 and outer 12 layers attached at diametrically opposed points 26, 28 (snap fasteners) which would allow the outer layer to pivot about the axis at 26, 28. It is inherent that friction would be exhibited by the outer layer on the inner layer when the outer layer is pivoted.

As to claim 26, the headguard has a left and right half with the axis extending laterally through both the left and right halves.

As to claim 27, the device of Franzen is capable of being biased by a user to a standard position.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **ANDREW W. SUTTON** whose telephone number is (571)272-6093. The examiner can normally be reached on Monday - Thursday 8:00-6:00.
